

## Call for Abstracts

**What:** A bilingual symposium featuring presentations on environmental and cultural research, monitoring, restoration, and conservation efforts along the Santa Cruz River. Research Days will feature real-time English–Spanish translation.

**Theme:** Building on Successes

**When:** Tuesday, April 29, 2025, 1:00–5:00p.m. and  
Wednesday, April 30, 2025, 9:00a.m.–5:00p.m.

**Where:** Hybrid event with both in-person and virtual options  
Pima Community College, **Downtown Campus** 1255 N. Stone Ave., Tucson 85709  
*A different location this year!*

### **Important dates:**

- Abstract Submission: **February 24, 2025**
- Speaker confirmation: **March 3, 2025**

Abstracts for oral presentations are invited and should be submitted by **Monday, February 24, 2025**. Please submit abstracts via email to **Claire Zugmeyer at [czugmeyer@sonoraninstitute.org](mailto:czugmeyer@sonoraninstitute.org)**

Time slots for oral presentations are 15–20 minutes. We will prioritize full-length presentation slots for projects that are complete or have preliminary results—particularly those that relate to this year’s theme of *Building on Successes*. We may have shorter presentations (Lightning Round) if needed.

**Abstract guidelines:** **Abstracts should be short and informative.** Authors alone are responsible for correct spelling and grammar. We compile abstracts to produce the annual Proceedings of the event. In addition, we provide digital copies of posters and presentations in an event archive linked from the Sonoran Institute website.

Preferred presentation type: Oral or Lightning Round

Presentation Language: English or Spanish

### **Presentation title**

SPEAKER NAME, Speaker affiliation

Co-author(s), co-author affiliations

Abstract body text: 300 words or fewer
